

# Symposium of sustainability of economic development

Palić, 15-18.07.2020.

The Symposium of Sustainability of Economic Development traditionally gathers researchers with the aim of formally and informally reviewing and communicating the results of theoretical and practical research and exchanging information of direct interest for economic, sociological and environmental research in direct contact. The symposium will enable the transfer of knowledge between scientists, as well as between scientists and representatives of the economy. The symposium of the sustainability of economic development is intended for all experts in the field: economics, law, auditing, energy, management, ecology, finance, education, informatics, etc. The symposium program includes thematic units and issues of sustainable economic development.

The symposium is an extraordinary opportunity to gather researchers in Palić, one of the most beautiful tourist destinations in the Republic of Serbia, from 15 to 18 July 2020. The Program Committee, chaired by Milorad Zekić, and the Organizing Committee, chaired by Bogdan Ilić, are preparing a quality scientific and social program.

Important		Fee
